Executive Order 11905, Page 9, Section 3(d)(1)(IX):

"Ensure the existence of strong Inspector General capabilities in all elements of the Intelligence Community and that each Inspector General submits quarterly to the Intelligence Oversight Board a report which sets forth any questionable activities in which that intelligence organization has engaged or is engaged."

Comment:

This is a responsibility of the heads of departments and agencies of the Executive Branch, not the DCI's. He does not have the authority to ensure the existence of a strong capability of or to ensure reporting to the IOB by components except for CIA. This responsibility is better placed with line management and is adequately covered in the duties of Senior Officials described in Section 4(a)(4) and 4(a)(6).

Proposal:

Delete Section 3(d)(1)(ix).

o/s Opposed - Can we get out of narcotics. want to put DEA in Comm.

DEFINITIONS

Section 2(b)

Observation: Narcotics intelligence or narcotics-related intelligence is currently of high priority interest in view of the severe social costs resulting from the abuse of drugs supplied by foreign sources. Many difficulties now result from the fact that the Drug Enforcement Administration (DEA) is considered only an enforcement agency despite the fact that its activities and programs abroad are really in support of a foreign policy undertaking. As the lead narcotics agency with attendant intelligence responsibilities, it is particularly important that DEA be represented in the Intelligence Community to the extent necessary to permit the exchange of information on narcotics matters. It is advantageous to the DCI to have clearly defined authority over DEA foreign intelligence programs and activities.

Suggestions: That International Intelligence Division of DEA be included in the membership of the foreign intelligence community for narcotics matters, a paragraph (10) should be added:

- (10) Intelligence element of the Drug Enforcement Agency on all matters dealing with illicit narcotics trafficking.
